Functionality and billing

Swisscom provides local toll free numbers for dial-in conferences in about 60 countries. Basically, participants can reach these numbers from the local fixed and mobile networks of the corresponding country. Toll free numbers offer the added advantage that participants of a conference do not have to pay any connection charges. They will be charged to the conference leader. The charges will be itemised on the monthly Swisscom bill under Conferencing Services. Detailed conference reports can be ordered for free at the Service Office Conferencing. You can reach us under 0800 800 205.

Reservation

If a dial-in conference should be accessible via toll free numbers, the conference must be set up accordingly when the reservation is made.

No connection guaranteed

Telecom providers in Switzerland and abroad have specific regulations concerning connections to business and toll free numbers. Thus, Swisscom cannot guarantee the availability of the above listed numbers in any case. If it is not possible to establish a connection, the chargeable dial-in number +41 (0)58 262 07 22 can be used at any time.
